**The performance quoted represents past performance, does not guarantee future results and current performance may be lower or higher than the data quoted. The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance data current to the most recent month end may be obtained at [www.emeraldmutualfunds.com](http://www.emeraldmutualfunds.com). Investment performance reflects fee waivers in effect. In the absence of fee waivers, total return would be lower. Total return is based on NAV, assuming reinvestment of all distributions. Performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.**

### Portfolio Management

The Fund portfolio is managed by a veteran investment team with 60 years collective investment experience and has been defining investment opportunities together at Emerald since 2001. Collectively the team personally meets with over 200 company executives annually.

### Objective

The Fund seeks long-term growth through capital appreciation. Income is a secondary objective.

The Fund invests primarily in stocks of community banks, insurance companies, and other companies related to the financial services industry. The portfolio is comprised of companies of various size, including smaller companies with a focus on stocks that pay dividends. At a minimum 80% of Fund assets are invested in stocks of companies primarily engaged in the banking or financial services industries. Typically invests a minimum of 25% in banks and savings & loans (S&Ls) and 25% in diversified financial services. As a result of an on-going comprehensive risk assessment process the team seeks to control volatility by diversifying the Fund's portfolio among subgroups or industries within the financial services sector.

Diversification does not eliminate the risk of experiencing investment losses.

There are risks involved with investing, including loss of principal. Past performance does not guarantee future results, share prices will fluctuate and you may have a gain or loss when you redeem shares. A fund that concentrates in a particular industry will involve a greater degree of risk than a fund with a more diversified portfolio. Investing in smaller companies generally will present greater investment risks, including: greater price volatility, greater sensitivity to changing economic conditions and less liquidity than the securities of larger, more mature companies.

The Fund's investment advisor is contractually obligated to waive a portion of its fees and reimburse other expenses until August 31, 2017, in amounts necessary to limit the Fund's operating expenses (exclusive of Acquired Fund Fees and Expenses, brokerage expenses, interest expense, taxes, and extraordinary
