The performance quoted represents past performance, does not guarantee future results and current performance may be lower or higher than the data quoted. The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance data current to the most recent month end may be obtained at www.emeraldmutualfunds.com. Investment performance reflects fee waivers in effect. In the absence of fee waivers, total return would be lower. Total return is based on NAV, assuming reinvestment of all distributions. Performance does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

* Excludes sales charge. ** Reflects effects of the Fund's maximum sales charge of 4.75%. + Excludes contingent deferred sales charge. ++ Includes the effects of the 1% deferred sales charge.

¹ Class A and Russell Indices – Since 2/18/1997. Class C – Since 7/1/2000. Institutional Class – Since 3/19/2012. Investor Class – Since 3/16/2010.

Returns greater than 1 year are annualized.

The Russell 2000® Financial Services Index comprises those companies included in the R-2000® Index classified as members of the Russell financials sector. One cannot invest directly in an index.

The Russell 2000® Index measures the performance of the 2,000 smallest companies in the Russell 3000® Index. The Russell 3000® Index represents approximately 98% of the investable U.S. equity market. One cannot invest directly in an index.

Portfolio Management

The Fund portfolio is managed by a veteran investment team with 62 years collective investment experience and has been defining investment opportunities together at Emerald since 2001. Collectively, the team personally meets with over 200 company executives annually at various locations including their offices, conferences, trade shows or other locations.

Objective

The Fund seeks long-term growth through capital appreciation. Income is a secondary objective.

The Fund invests primarily in stocks of community banks, insurance companies, and other companies related to the financial services industry. The portfolio is comprised of companies of various size, including smaller companies with a focus on stocks that pay dividends. At a minimum, 80% of Fund assets are invested in stocks of companies primarily engaged in the banking or financial services industries. As a result of an on-going comprehensive risk assessment process, the team seeks to control volatility by diversifying the Fund's portfolio among subgroups or industries within the financial services sector.

Diversification does not eliminate the risk of experiencing investment losses.

You should consider the investment objectives, risks, charges and expenses carefully before investing.

A prospectus with this and other information about the Fund may be obtained by calling 855-828-9909 or by downloading one at www.emeraldmutualfunds.com. It should be read carefully before investing.

There are risks involved with investing, including loss of principal. Past performance does not guarantee future results, share prices will fluctuate and you may have a gain or loss when you redeem shares. A fund that concentrates in a particular industry will involve a greater degree of risk than a fund with a more diversified portfolio. Investing in smaller companies generally will present greater investment risks, including: greater price volatility, greater sensitivity to changing economic conditions and less liquidity than the securities of larger, more mature companies.

The Fund's investment advisor is contractually obligated to waive a portion of its fees and reimburse other expenses until August 31, 2019, in amounts necessary to limit the Fund's operating expenses (exclusive of Acquired Fund Fees and Expenses, brokerage expenses, interest expense, taxes, and extraordinary

Statistics & Characteristics

Beta (52 weeks vs. S&P 500)*	1.06
Turnover % (trailing 12 months)	66%
Number of Holdings	81
Total Net Assets (\$ millions)	361.54
Standard Deviation (3-Yr)**	18.93

* Beta is a measure of risk which shows the Fund's volatility relative to its benchmark index.

** Standard Deviation measures the degree to which a fund's return varies from previous returns or from the average of all similar funds.

expense) for Class A, Class C, Institutional and Investor Class shares to an annual rate (as a percentage of the Fund's average daily net assets) of 1.84%, 2.49%, 1.54% and 1.89%, respectively. This agreement (the "Expense Agreement") is in effect through August 31, 2019. The Adviser will be permitted to recover, on a class-by-class basis, expenses it has borne through the Expense Agreement to the extent that the Fund's expenses in later periods fall below the expense cap in effect at the time of the waiver or reimbursement. The Fund will not be obligated to pay any such deferred fees and expense more than three years after the year(s) in which the fees and expenses were incurred. The Adviser may not discontinue this waiver prior to August 31, 2019, without the approval of the Fund's Board of Trustees.
